Upper Yampa Water Conservancy District Mission

To lead water resource management within the District’s boundaries by responsibly conserving, protecting, developing, providing and enhancing the water resources of the Upper Yampa River Basin for the benefit of the Basin.

Preamble

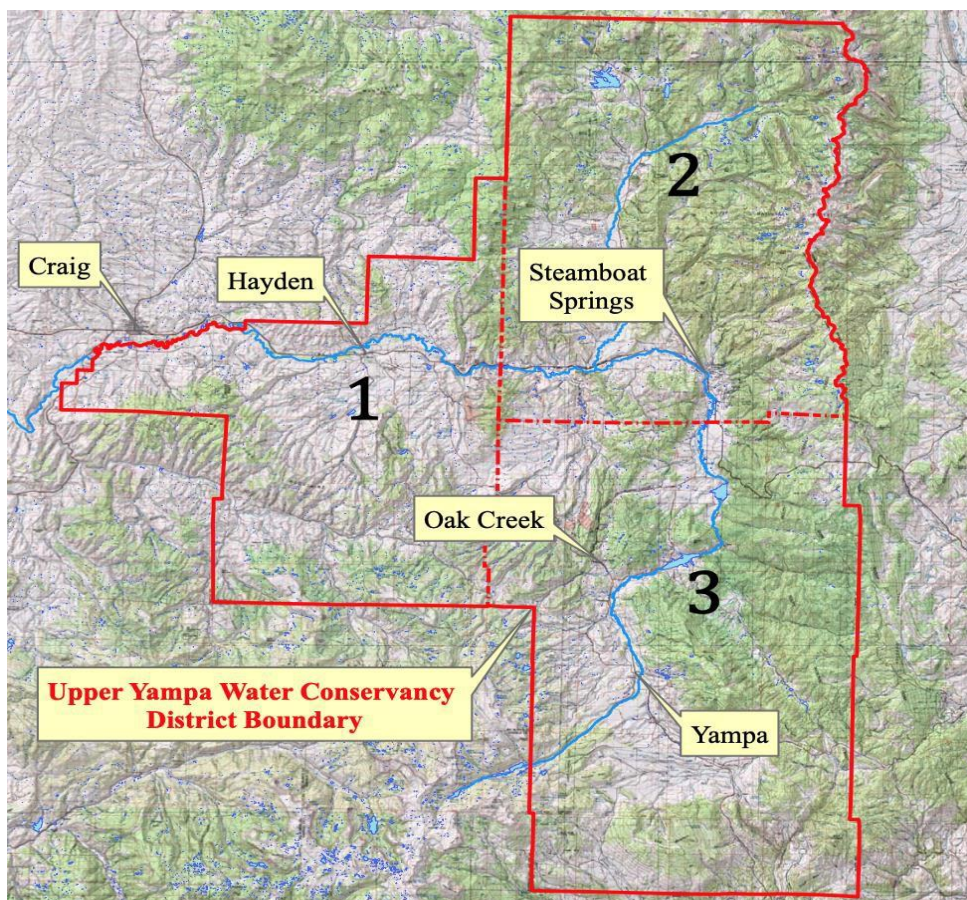

The Upper Yampa Water Conservancy District Board of Directors (herein ‘Board’) has developed and adopted, and will maintain, this Board Governance Manual as a resource to support the District’s mission, guide the Board, and encourage public confidence in the integrity of the District and its fair and effective operation. This Manual is shaped by the Board’s commitment to the following:

1. **Leadership** in the Upper Yampa Basin and regionally in the conservation and development of water resources.

2. **Partnership** with other agencies, stakeholders, and customers to conserve and develop water resources.
3. **Stewardship** of taxpayer dollars and the region’s precious water resources.

District Background

The Upper Yampa Water Conservancy District was formed in 1966 and instituted a mill levy under the Water Conservancy Act of the State of Colorado, in order to plan and develop water conservation projects in the Upper Yampa Basin. The District encompasses Routt County and a portion of Moffatt County and is divided into three divisions: Division 1 (Hayden area), Division 2 (Steamboat Springs area), and Division 3 (Oak Creek/Yampa area). The nine members of the Board of Directors, three representing each Division, are appointed by the District Judge to serve staggered four-year terms. Three Directors (one from each Division) are appointed each year, with the exception of every fourth year when no appointments are made. Directors must reside and own real property in the Division they desire to represent. There are no limits on the number of terms Directors may serve.

The District was formed on the basis that properties within the District would benefit through conservation, development, and stabilization of water supplies for domestic irrigation, power, manufacturing, and other beneficial uses. This led to the construction of Yamcolo Reservoir, located in the Flattops near the headwaters of the Yampa River, in 1980 and Stagecoach

Reservoir, located southeast of Steamboat, in 1989. Yamcolo offers 9,621 acre feet of storage, which primarily provides water to agricultural operations in South Routt County; some of which is delivered via the Stillwater Ditch, a District-owned and operated irrigation ditch that crosses the Five Pines Mesa. With up to 36,439 acre feet of storage, Stagecoach serves a multitude of water users, including municipalities, industrial use such as energy production, agricultural operations, and recreation including snowmaking. The District also owns and operates an 800 kW hydroelectric power plant at Stagecoach Dam. In addition to safely maintaining and operating District-owned facilities, the District promotes healthy reservoirs, streams, and watersheds within the District. In 2012, the District partnered with the Colorado Water Trust to coordinate the first environmental water release out of Stagecoach Reservoir. The District continues to maintain partnerships with cooperative entities to deliver environmental water releases in response to low flow conditions. As part of its maintenance and operation, the District also closely adjusts and monitors the temperature and oxygen content of its releases to ensure a healthy habitat for trout and other aquatic life downstream, a contribution to both the environment and recreational opportunities on the Yampa River. In collaboration with various agencies, the District supports water quality efforts and participates in working groups to address issues that may affect water quantity in the future. The District monitors issues throughout the Colorado River Basin in an effort to protect the water resources of the Upper Yampa Basin and plan for potential water shortages.

The District is committed to an Upper Yampa River Basin with safe, secure water storage and supply that benefits all uses in the Basin.

Relevant Legal Authority

The District is a governmental entity organized under the Colorado Water Conservancy Act found in Title 37, Article 45 of the Colorado Revised statutes. The Act contains the State law governing the creation, powers and authority, governance, operation, and financing of the District. The 1966 Decree forming the District describes the Boundaries and Divisions within the District, the Board structure, and the certain projects then expected to be undertaken by the District. The District is also subject to other legal requirements of state and federal law including the Colorado Open Meetings law, the Open Records Act, the Local Government Budget Law, the Colorado Governmental Immunity Act, the Code of Ethics, and current Electronic Meetings Rules. The District has adopted Bylaws, policy resolutions, Employee Handbook, and this Board Governance Manual.

Chapter 1 – Role and Authority

Board Values

District constituents, and persons and entities who contract for allotments of water from the District, are entitled to Directors (herein ‘Directors’) who are fair, ethical, and accountable. Directors strive to constantly seek to reflect the following qualities in discharging their duties:

- Strive to be independent, impartial, and fair in their judgment and actions;

- Use their public office for the public good, not for personal gain; and
- Conduct public deliberations and processes openly, where not legally confidential, in an atmosphere of respect, civility and transparency.

Role of the Board

The primary role of the Board is to establish policies and strategic direction that guide the District to meet its mission. The Board gives clear direction to the General Manager through motions, resolutions and other directives at Board meetings. This includes the need for visionary planning and adapting to unforeseen events. The Board exercises this authority only collectively as a Board, rather than as individuals. Directors recognize and respect the distinction between their policy-setting and oversight role, and the day-to-day implementation of policy by staff. The Board's role is to be 'nose in, fingers out,' meaning the Board is kept regularly informed of major District activities, pursuant to the Board's overall strategic plan and policy priorities, with the opportunity to provide feedback or raise questions at any time, and to discuss issues at Board meetings. The Board does not direct the day-to-day activities of the staff.

The Board's responsibilities are set forth in the District Bylaws and include the following:

- Promote the best interests of the District's constituents and stakeholders by establishing policies that support the current vision and mission of the District and ensuring implementation of those policies. Policies include the governing principles, strategic plans, and course of action for the organization. The District's policies are to be reviewed by the Board at least once every 5 years. The use of regular surveys of the District's constituents as part of policy reviews is encouraged.
- Establish policies that ensure fiscal stability and the effective use of funds. Each fiscal year the Board adopts a budget covering the anticipated revenues and expenditures of the District and reviews budget reports throughout the year. In addition, the Board hires an independent auditor to ensure District finances comply with standard governmental accounting rules. From time to time, the Board also reviews and/or adopts amendments to the District's cash reserve, investment, and other policies as necessary.
- Hire a General Manager to manage the day-to-day operations of the District. The Board holds the General Manager accountable for the effective operational management of the District and evaluates the General Manager at least annually.
- Perform annual Board Performance review.
- Engage legal counsel as needed to effectively represent the needs and interests of the District.
- Approves certain contracts and projects, appropriates water rights, and takes such other actions as set forth in the Bylaws.

For the Board of Directors to function in an effective manner, it is important that each member understand his/her respective role and the relationship they have to other members of the Board and to the General Manager.

Chapter 2 – Board Interactions with General Manager, Counsel and Staff

The Board is committed to supporting a healthy, responsive and well-functioning organization. This requires collaborative, open and well-defined relationships with the Board’s General Manager, counsel, and staff.

The Board’s Relationship with the General Manager

A strong collaborative relationship between the District Board and the General Manager is essential to a highly functioning Board and District. The General Manager is the primary agent of the Board and is the one to whom the Board delegates authority to manage and administer the District's daily operations in accordance with approved policies, budget, and governing documents of the District. The General Manager has two roles: chief executive officer and top advisor to the Board. As the most visible employee, the General Manager represents the District to its stakeholders and constituents.

Directors will focus on maintaining a shared sense of purpose, open communication, honesty, trust and mutual support of each another, Counsel, and staff. The Board must be able to support the decisions of the General Manager, provide the General Manager with clear direction, and grant him/her the authority to manage and lead the District. Both parties will endeavor to publicly support and be responsive to one another. They are expected to raise questions or concerns with one another in a direct, timely manner through open, honest and respectful communications, with regard to both the District’s internal and external operations.

The General Manager is responsible for ensuring Directors have the information they need to make Board-level decisions and that all Directors are provided the same information. Directors expect the General Manager to make a recommendation on issues before the Board, except those that are strictly reserved to the Board or legal matters within the responsibility of the District's legal counsel.

In addition to the above, the following guidelines are intended to help define the relationship between the Board and the General Manager:

- 1) Individual Directors are encouraged to discuss District-related matters with the General Manger at any time, including to provide feedback, input, and/or suggestions concerning District policy and operations. If at any time the General Manager or a Director believes an issue may require broader policy clarification and/or decision making by the Board, he or she brings the issue to the full Board for input or guidance.
- 2) The General Manager prepares an annual budget and work plan for approval by the Board of Directors. The General Manager’s annual work plan directly references and advances the District’s strategic plan.
- 3) The Board reviews and, as needed, updates the District’s strategic plan on an annual basis, prior to the General Manager’s development of the budget and work plan for the following year.

- 4) The Board reviews and, as needed, updates the District's Board Governance Manual on an annual basis.
- 5) The Board, assisted by the General Counsel, provides the General Manager with a written evaluation at least annually that is standardized, transparent, and tied to his/her job description and annual work plan. The review process is intended to be a collaborative, constructive process that is designed to enhance performance and provide guidance to the General Manager on Board priorities.
- 6) The General Manager updates the Board bimonthly on the status and implementation of his/her work plan, to foster open communication regarding District activities, accomplishments, and any areas of concern. Any specific concerns and/or feedback should be raised during the General Manager's reports at these meetings, rather than being delayed until his/her annual review, consistent with the provisions of Chapter 5 below.
- 7) Directors are encouraged to engage on water matters with District stakeholders and others. Important issues or information from these discussions should be shared with the General Manager.
- 8) The General Manager provides all Directors with the same information regarding District business.
- 9) When a Director is going to be out of town or unavailable for a Board meeting or other function involving the Board, he/she notifies District staff in a timely manner.
- 10) The General Manager advises the Board of Directors when he/she is out of the office for an extended period of time and designates the individual who shall be acting General Manager during that time.
- 11) If a Director or General Manager has concerns that these guidelines are not being properly followed, he or she will raise the issue with the full Board and/or in accordance with the conflict resolution procedure in Chapter 5, as appropriate.
- 12) Except for matters reserved to the Board in the Bylaws or as legally required, within budgeted authority and in accordance with Board direction, the General Manager is the executive officer of the District and authorized to act on behalf of the District.

The Board's Relationship with Counsel

- 1) **General counsel.** In general, any Director may contact the District's General Counsel with District-related inquiries. If the matter involves a request for significant legal work, it is approved by the Board as a whole. Exceptions include Directors collaborating with Counsel on longer-term District projects, in which cases approval by the Board is presumed, provided the Board initially authorized the project and is kept up to date. The Board President may also communicate with Counsel for purposes of Board meetings as needed; the General Manager is generally kept abreast of these communications. On an annual basis the Board shall approve an engagement letter with its General Counsel.
- 2) **Special counsel.** The District will from time to time employ special counsel. Unless otherwise determined by the Board, the protocol for Board member interaction with Special counsel is the same as with General Counsel.

Interactions with Staff (Apart from General Manager)

District staff serves the District as a whole. The Board adheres to the following guidelines in interacting with staff serving under the supervision of the General Manger:

- 1) Directors do not direct staff to initiate any action, change a course of action, or prepare any report without the approval of the General Manager and, if necessary, Board action.
- 2) Directors may make reasonable inquiries to staff regarding District-related matters. Requests for staff research are directed to the General Manager. Responses involving District policy are generally shared with the full Board.
- 3) Directors do not attempt to pressure or influence staff discussions, recommendations, workloads, schedules, or priorities.
- 4) If Directors have questions or information they would like addressed by staff at Board meetings, they strive to share this reasonably in advance with the General Manager, so that staff can provide the desired information in the regular Board meeting packet and verbally at the meeting as requested.
- 5) Soliciting political support from staff is prohibited. District staff may, as private citizens, support political candidates, but all such activities must be done away from the workplace and may not be conducted while on the job.
- 6) Any issues or conflicts are addressed in accordance with the issue or conflict resolution procedure in Chapter 5.

Chapter 3 – Board Governance

The District Bylaws establish the orderly conduct of District business where not otherwise provided by State law. The provisions below are non-binding guidelines, except where explicitly stated in the Bylaws.

The officers of the Board of Directors include the President and Vice-President. The General Manager serves ex officio as Secretary/Treasurer of the District. Officers of the District are elected annually by the Board.

Role of Board President

A collaborative relationship between the President and General Manager is essential to a highly functioning Board. The primary role of the Board President is to preside over meetings, consult with the General Manager regarding Board meetings, and sign certain District documents and checks. The President is expected to meet with the General Manager before Board meetings, to frame and clarify topics, and after Board meetings, to ensure clear and timely follow up regarding Board-related activities and tasks.

Board Meeting Schedule and Location

The regular meeting schedule is approved by the Board at the November Board meeting for the upcoming year. In general, every other Board meeting will include topics, materials, and/or policy issues with a need for more lengthy, informal, and participatory discussions, which will

often inform future decision-making. These ‘work session’ style meetings are still considered Board meetings with accompanying agendas, minutes and relevant action items.

Currently, most (but not all) regular Board meetings are held in the third week of each month commencing at 12:00 pm in the upstairs conference room known as the Mountain Valley Bank Community Meeting Room, 2220 Curve Plaza, Suite 201, Steamboat Springs, Routt County, Colorado. Lunch is normally served before the meeting starting at 11:30 am. Remote access is provided for District Board meetings when possible. The Board may hold a day long Board retreat in October in lieu of the October Board meeting. Special meetings may be called from time to time in accordance with the Bylaws.

Board Meeting Agenda Development

Board meeting agendas are generally set at the end of each meeting for the next Board meeting. Once set, they may be subsequently modified by the General Manager and Board President, or at the request of two Directors, provided any changes are made well before Board packets are distributed and posted, except in the case of urgent matters. Where possible, the General Manager and Board President come to agreement on the agenda topics and briefing materials required, in order to help ensure Board meetings are organized and productive.

Board Meeting Structure

In general, Board meetings will follow the following agenda:

- Establishment of Quorum and Call to Order
- Approval of Agenda for Meeting
- Public Input and Comment
- Consent Agenda (minutes, financial report, disbursements, and other consent items)
- Report of General Manager
- Strategic Plan Report(s)
- Committee Reports
- Report of General Counsel
- District Engineer Report
- Consideration/Action on District Projects
- Board Member Reports
- Discussion of Pending Legislation
- New Business (as defined in District Bylaws)
- Determination of Next Meeting Agenda
- Adjournment

When agenda topics involve engagement with external parties, the General Manager or Board may propose to adjust the agenda to move those topics toward the top of the agenda, in consideration of the parties’ time.

As specified in the Bylaws, the ‘Board of Directors Reports’ section of each meeting agenda is for members of the Board to provide brief reports on matters of interest to the Board, including all meetings attended in their capacity as Directors. If the report is lengthy, or a Director wishes

to raise an issue for Board consideration, the report is put in writing in the form of a Board Communication Form for staff to include in the Board meeting packet.

Bimonthly meeting agendas also include an update from the General Manager on the implementation of his/her work plan and any issues that may have arisen.

Board Meeting Protocol

The following describes the Board's expectations for how its meetings are conducted.

- 1) Directors treat members of the public with courtesy and respect. While Directors will not always agree with constituents, concerns and/or questions directed by Directors to meeting attendees will be professional, courteous and not personalized. Directors will hold one another accountable to these expectations; if concerns arise, Directors are expected to call for a 'Point of Order' to help reset the conversation and ensure it remains respectful.
- 2) Board meeting minutes are distributed to Directors in advance of the next meeting and generally approved with corrections, if any, at the next regular Board meeting.
- 3) Information relevant to the Board's decision making and oversight should be shared efficiently by staff, but without unnecessary bureaucracy. In general, Board agenda items are accompanied by a Board Communication Form that explains the issue and what action, if any, is being sought. The Board is kept apprised of issues relevant to Board policy or decision-making and on the progress of District activities. Relevant updates, information, and policy options are provided in writing prior to Board meetings. Board Communication Forms may be supplemented with discussion and questions as needed.
- 4) As set forth above, the President and/or Vice President is expected to meet with the General Manager prior to Board meetings to review and prepare for the upcoming meeting, as well as after the meeting to ensure clear and timely follow up.
- 5) At the direction of the General Manager, department heads or appropriate departmental managers will generally be present at Board meetings.
- 6) Committees are used where beneficial to discuss, vet and frame complex issues for broader Board consideration. No less frequently than annually, the purpose, membership, and authority of Committees is confirmed by the Board. Unless specifically delegated decision authority by the Board, Committees make recommendations to the Board.
- 7) When appropriate the Board adopts policies by resolution and ensures a clear methodology for tracking policy resolutions.

Electronic Communications

Written and electronic documentation and communication regarding District business and/or operations is legally considered to be in the public domain. This excludes information protected by attorney-client or other privilege. Further, telephonic meetings, emails and texts that discuss public business and involve more than two members of the Board may constitute a 'meeting' under Colorado law and in such cases must be open to the public. Where appropriate, Directors' ideas or proposals for consideration by the full Board are be sent to the General Manager (or, as relevant, the General Counsel) for inclusion in the Board packet prior to the next Board meeting.

Board members understand that rules involving electronic communications are subject to change, and that their actions must be consistent with state law and the District Bylaws.

On-Boarding and Orientation of Directors

New Directors should receive copies of this Board Governance Manual, District Bylaws, Employee Handbook, current strategic plan, annual budget, and other relevant policy and governance materials.

Further, to effectively oversee the functions of the District, new Directors should receive a tour of District's facilities and infrastructure within their first six months. All Directors are encouraged participate in this tour on a regular basis.

Chapter 4 – Board Interactions with the Public

As a public body, it is important for the District Board to establish a working environment that encourages public participation and trust. During their service, Directors may have a range of interactions with the public including written communication (i.e., letters, email, etc.), social media, phone calls, face-to-face, social functions, and regular and special Board meetings. The District Board will collect community survey data regarding water resources management topics at regular intervals.

Engaging the Public in General

The Board respects the role of constituents in the governance of the District and encourages their participation. The Board values public comments, both in writing and during Board meetings, and will seek input from stakeholders where appropriate in District decision making. Directors will encourage constituents to attend Board meetings where they have input, comments or concerns to share, whether in person or writing.

Public Input During Board Meetings

The Board President maintains an orderly progression of the business before the Board, and to the extent possible regulates the amount and type of input from the public and from members of the Board and staff. To engage the public, public comment is generally accepted on all agenda items, with time set aside for general public comment on items not on the agenda. This is clearly indicated on meeting agendas. In addition, the Board will often invite a stakeholder group to attend lunch before Board meetings.

Generally, Directors will not respond to public comments during the public input portion of the agenda except to refer matters to the General Manager for follow-up. Directors may ask clarifying questions to ensure that staff provides an appropriate response. Occasionally, a prompt response may be offered by the President or the General Manager when an obvious answer or resolution is available. The Board will not enter into a debate or make decisions in response to public comments that are not on the agenda for consideration.

Representing the District Outside of Board Meetings

The Board encourages all Directors to attend meetings and events related to relevant water matters in an informal capacity. Primarily this helps create a more informed Board and enables Directors to share relevant issues and information with the rest of the District Board and staff at District Board meetings (during ‘Board Member Reports’). Additionally, Directors’ participation in other Basin water efforts can be helpful in raising the visibility and public understanding of the mission and activities of the District.

Board members strive to represent the positions and perspectives of the District in an accurate and well-coordinated manner. To do so, Directors adhere to the following guidelines:

- 1) When Directors attend other meetings or events as Directors of the District, they are encouraged to be collaborative and participatory, with the primary goal of listening, asking questions and contributing ideas, and reporting back to the District about relevant efforts and topics.
- 2) Directors attending another meeting or event will clearly delineate between their personal views and opinions and official District policy.
- 3) Directors do not represent policy positions of the District unless adopted by the Board. When an external body asks a representative of the District to provide input on a document or policy, Directors may respond as individuals in the absence of formal Board action. They will make best efforts to inform the rest of the Board of opportunities to comment in a timely manner.
- 4) Directors communicate and coordinate closely with District staff prior to communicating District policy positions, to ensure messaging is clear and consistent.
- 5) When a Director participates in a non-District meeting that is attended by District staff and/or by another Director, they coordinate regarding their respective roles, including the responsibility for reporting back to the Board as appropriate. In addition, it should not be assumed that staff will be available to support such participation and/or related coordination with the Board. Such requests should go through the General Manager and otherwise be undertaken by Directors themselves.
- 6) The General Manager may invite Directors to accompany him/her to external meetings where useful in discussing official District business. (In some cases the General Manager may decide it would be useful to have two Directors attend such meetings.)
- 7) Directors may be called upon by the full Board and/or General Manager to represent the District in a formal capacity or otherwise. The Board may determine annually which Directors officially represent the Board in other water groups or initiatives.
- 8) If the District is requested by an outside organization to provide an official designee, the General Manager will bring this request to the full Board.
- 9) To the extent a Director may communicate with constituents or stakeholders regarding Board perspectives on non-confidential matters, he/she will strive to offer a balanced perspective with adequate disclaimers about his/her own role. When expressing personal opinions and comments that may be contrary to adopted District policy, Directors will clarify that these statements do not reflect the official position of the Board or District.
- 10) When addressing the media or utilizing social media or other forms of communications to express positions contrary to official Board policy, Board members will explicitly state that their views reflect personal opinions rather than Board policy.

- 11) When three or more Directors are authorized by the Board to attend a meeting, the meeting is properly noticed as a public meeting of the District.
- 12) Once the Board of Directors has taken an official position on an issue, official District correspondence regarding that issue will normally reflect the Board's adopted position, except as otherwise directed by the Board.

Chapter 5 – Resolution of Issues or Concerns

The Board recognizes that concerns, misunderstandings, and differences of opinion are inevitable for any organization. While in some cases the Board may simply agree to disagree, the Board is committed to addressing concerns that impair the healthy functioning of the District or Board. The Board strives to address these concerns directly, respectfully, with curiosity, and as transparently as possible, whether they concern Board members, the General Manager, or the District as a whole. Concerns are addressed in a timely, open and responsive manner to promote mutual understanding and healthy functioning of the District.

This Chapter describes options for resolving concerns, misunderstandings, and differences of opinion. They are not intended to apply to disciplinary matters addressed in the District's Employee Handbook. The Board and the General Manger (in the case of matters within the purview of the General Manager) are free to modify the procedures described or to disregard them as they deem appropriate under the circumstances. These procedures are not mandatory and are not the exclusive means of addressing such matters.

Concerns Involving Board Members

It is not uncommon for miscommunication, misunderstandings or conflicts to surface among Board members or between a Board member(s) and the General Manager. Board members will address such issues in a timely and direct manner, taking the following steps as appropriate (generally but not always in the following sequence, as needed).

- 1) Attempt to address any personal conflicts or concerns in a direct and timely manner with the other party or parties, striving for mutual understanding, curiosity, and appreciation for the different viewpoints involved.
- 2) Bring the concern to the Board President, who will facilitate the Board's determination of how to proceed with the concern. The Board and/or party involved may ask that the complaint be summarized in writing to support productive discussions, particularly if the complaint is of a more serious nature. The Board may choose to address the matter at a regular or special Board meeting, suggest mediation between the parties, and/or refer the issue to the appropriate parties. If the Board President is one of the people involved, the Vice President will serve in the role of the President. If the concern involves the General Manager, the Board may choose to address the issue in his/her annual review, consistent with the language in Chapter 2.

- 3) If the Board decides to address the concern at a Board meeting, the Board President in consultation with the General Counsel will ensure the concern is described and handled fairly and in accordance with District policy. This includes ensuring that the parties involved understand the concern and have an opportunity to share their perspectives. The President will facilitate the decision making of the Board. If the President is one of the people involved, the Vice President will serve in the role of President. The Board may review its past decisions if new information comes to light or for other reasons.
- 4) If the Board decides the issue should be addressed through mediation, the Board President and/or Vice President will work with District Counsel to engage a neutral third party at the cost of the District to facilitate direct discussions between the parties to resolve the issue.
 - a. The mediator must be: a) a person that the parties agree to; or b) in the absence of agreement, a person appointed by the Board. The third party may be a Board member or impartial individual whose aim is to help the parties resolve the issue.
 - b. While the parties may agree to keep discussions confidential to the extent authorized by law, the result will be shared with the Board at whatever level of detail the parties agree is appropriate, to keep the Board apprised, avert surprises, and promote transparency.If the mediation process does not result in the dispute being resolved, the parties may seek to resolve the dispute by the Board or other means.
- 5) The Board may decide to refer the concern to appropriate authorities as needed.

Concerns Involving the General Manager

The above procedures apply to complaints or concerns regarding the General Manager from the public, Board members, staff, or Counsel.

Issues or Concerns Involving Staff Operations and Actions

Any concerns of a Director regarding the behavior or work of a District employee other than the General Manager are directed to the General Manager privately to ensure the concern is addressed. The GM will confer with District Counsel and keep him/her fully apprised of the handling of the issue. Directors do not reprimand employees directly nor do they communicate their concerns about individual staff members to anyone other than the General Manager or as otherwise permitted by law or the governing documents of the District. The General Manager addresses and tries to resolve the issue, consistent, where relevant, with the District's Employee Handbook. The General Manager keeps the Board apprised on the resolution of such issues in an appropriate and timely manner and in accordance with the Bylaws and other policies.

The District's Employee Handbook provides guidance as detailed in the **Job Related Problems** section.

Issues Involving the District in General

The Board recognizes there will be occasions in which members of the public or stakeholder of the District have concerns about District operations or policy and raise such concerns with the

General Manager and/or members of the Board. The District is committed to handling these concerns or complaints responsively and openly. When such concerns are presented to a Board member, the Director will promptly raise the issue directly with the General Manager. When such concerns or complaints are presented to the General Manager, he/she will provide the Board with a written or verbal report of the concern and the District's response, if any. The Board is also kept informed of significant or, politically sensitive, urgent and/ or repetitive telephone or electronic communication inquiries.

Liability Concerns

Information that may expose the District to liability will be shared with the Board at a noticed, executive session meeting of the Board of Directors as allowed by applicable law

Chapter 6 – District Liability and Insurance Issues

As a Colorado governmental entity, the District, its Board and officers and employees enjoy limited protection from liability under the Colorado Governmental Immunity Act. In addition, the District maintains insurance, which includes coverage for general and automobile liability and public official liability coverage.

Disclaimer

This Manual is intended to provide guidance and establish best practices for Directors concerning their responsibilities as Directors and their interactions among themselves and with the public, staff, and constituents of the District in the conduct of District business and operations. This Manual does not establish binding requirements or legally enforceable rights. Nothing in this Manual is intended to supersede any applicable provision of the District's Bylaws, Rules and Regulations, adopted Policies, Employee Handbook or other applicable law, regulation, or document of the District.

CERTIFICATE OF SECRETARY

I hereby certify that the foregoing Board Governance Manual was approved by the Board of Directors of the Upper Yampa Water Conservancy District at a regular meeting of the Board on March 20, 2024.

By  _____
Andy Rossi, General Manager
and Secretary/Treasurer
